As a third level supervisor and executive of civil engineering & an energetic, adaptable person with a high spirit of teamwork, I have been involved in research, development and implementation activities in various civil fields since the beginning of my graduate studies. In order to gain experience and to be able to flourish my talents, I am very eager to continue my motivated activities in the mentioned fields in the form of an experienced team.

It is my top priority to remain up-to-date with knowledge of modern software in the field of civil and environmental engineering, and I am fully conversant with Microsoft Office, Analytical, Design, and Engineering softwares. In addition to my proficiency in Turkish, I am also fluent in English.
